

WHAT PARTS ARE COVERED?

We cover You against loss due to Mechanical Breakdown of certain parts during the period of cover. Only the parts specifically listed under each heading are covered. If a part is not listed then it will not be covered.

ENGINE

Rocker assembly, inlet and exhaust valves, valve guides and springs (excluding burnt valves and decokes), cylinder head (excluding cracks and overheating damage), head gasket, push rods, camshaft and cam followers, timing gears, chain and tensioner, oil pump, pistons and rings, cylinder bores, gudgeon pins, con rods and bearings, crank shaft and bearings, inlet and exhaust manifolds, flywheel and ring gear, distributor drive, oil cooler.

TIMING BELTS – Subject to additional fee.

Are covered if there is proof that the manufacturer's replacement recommendations have been complied with, and they are free from oil contamination.

GEARBOX - MANUAL

All internal failures of gears, shafts, synchromesh hubs, selectors, seals and bushes, bearings, speedometer drive, overdrive units (when fitted), solenoid, transfer box.

AUTOMATICS

All internal failure of gears, oil pump, seals, shafts, bushes, clutches, brake bands, bearings, governors, servos, torque convertor, drive plate, valve block, computer governor, modulator valve, speedometer drive.

CONTINUAL VARIABLE TRANSMISSION CTX/CVT

All internal failures of clutches, planetary gears, shafts, variable pulleys, thrust link drives, internal seals, bushes and bearings.

DRIVE SYSTEM (FRONT / REAR)

Crown wheel and pinion, half shaft oil seals, bearings, planet gears, bevel gears, rear external drive shafts, constant velocity joints, 4 wheel drive units.

BRAKES

Master cylinder, wheel cylinders, brake calipers, servo, brake pumps, brake limiter valve, ABS computer/sensors/pumps.

STEERING

Rack and pinion, steering box, idler box, power steering rack/ram and pump, pressure pipes, reservoir, steering column.

COOLING SYSTEM

Water pump, thermostat, heater matrix, electric fan motor/sensor, viscous fan coupling, radiator, air conditioning pump, condenser, evaporator, magnetic clutch and valves (when fitted as standard).

PROPSHAFT

Propshaft, universal joints and bearings.

ELECTRONIC CONTROL UNIT – Subject to additional fee.

Ignition system, fuel system, transmission system.

FRONT / REAR SUSPENSION

Shock absorbers, coil springs, upper and lower wishbones, ball joints, swivel joints, McPherson struts, suspension arms, anti-roll bar, self-levelling units and reservoir, pump and regulator valves, seals, displacer, hydro-pneumatic system.

WHEEL BEARINGS

Front and rear wheel bearings.

FUEL SYSTEM

Mechanical/electrical fuel pump, carburettor, electronic carburettor sensors and stepper motor, choke assembly, injection pump.

CLUTCH

Centre plate, pressure plate, thrust bearing, clutch fork, master cylinder and slave cylinder.

ELECTRICS

Starter/solenoid, alternator, regulator, coil, distributor, electronic ignition module, front and rear window/headlamp wiper motors, heater fan motor, indicator interrupter unit, electric window motor, sun roof motor, instrumentation gauges, centralised locking solenoids/pumps, switches, relays, sensors, electrical aerial motor, horn, cruise control system. (Front and rear heated screens and elements are excluded from cover).

ABS

ABS computer, sensors, pumps.

CASINGS

Cylinder block, gearbox and axle if they have been damaged by a mechanical breakage of one of the parts listed above.

INTERNAL FIXINGS / FITTINGS

ELECTRICAL

Internal and external light fittings, water system pressure switches and electrically operated water taps, control panels and related wiring (excluding bulbs, tubes, shades and the like), water pump, water heater, fridge and cooker (excluding microwaves) only.

GAS

Gas pipes, joints, bottle fixing, gas bracket, water heater, fridge and cooker, burner / control gas burners and cascade burner modules.

HEATING SYSTEM

Gas heater, flame failure device, igniter, thermostat, motor switches and control unit. Air conditioning system (excluding recharging and wiring). Excluding fittings and ducting.

WATER SYSTEM

Waste water tank, water pump, fresh water tank, taps, water level gauges and water heater, flow control taps and piping.

CASSETTE TOILET

Operating mechanism only excluding seals (manufacturer's original equipment only).

COOKER

The cooker unit including oven, grill, burners, flame failure device and igniter.

FRIDGE

Condenser, gas igniter, gas control valve, flame failure device, 12/240v heater elements, 240v thermostat, 240v temperature control switch, gas thermostat and selector switches.

AUXILIARY ELECTRICS

Battery charger, electrical distribution unit, interior and exterior light fittings, mains hook up connector and ECLB. Excluding bulbs and wiring.
