

PLATINUM COMPONENT COVER

The following components are protected against mechanical breakdown (as defined elsewhere in this document). Please note that if a part is not specifically listed it is therefore not covered.

Engine

All components contained within the cylinder block and head including pistons, rings, crankshaft, big end bearings, manifolds, rocker assembly, timing chains, timing gears, distributor drive.

Turbo Unit

All components including inlet and exhaust turbine shafts, bearings, bushes, wastegate devices.

Gearbox

All components contained within either manual or automatic transmissions including gears, bearings, clutches.

Clutch

All components including clutch plate, clutch cover, thrust bearing and or release bearing.

Differential

All components including gears, pinions, bearings, shafts.

Drive Shafts

All components including propshaft, drive shafts, C.V. joints, couplings.

Brakes

All components including servo units, cylinders, valves.

Suspension

All components including control arms, bushings, ball joints, pins.

Steering

All components on steering systems including power steering units, rams, pumps, reservoirs, steering box.

Bearings

All components including wheel bearings, seals, hubs, flanges.

Cooling System

All components including radiator, matrix, water pump, head gasket, thermostat.

Ventilation

All components including heater assembly vents, tubes, controls.

E.C.U.

All components including solid state control units, triggering units, distributor, coil.

Electrics

All components including motors, solenoids, relays, alternator, starter motor, switches, computers.

Air Conditioning

All components including compressors, pumps, reservoirs.

Fuel System

All components including fuel pump, carburettor, sender units, gauges, air flow meters, accumulator, fuel distributor, regulator.

Locks

All components including regulators, locks, catches.

Seals

All major oil seals and gaskets.

Casings

Casings are covered if damaged by any of the above listed components..

Items That Are Not Covered (not an exhaustive list)

Include brake frictional material (such as brake discs and pads), wheels, worn clutches / flywheels, batteries, service items such as oils and filters, consumables, glass, interior and exterior trim, bodywork, all weather strips and seals, issues caused by any type of water ingress, tyres, coil springs that show evidence of corrosion, keys, door handles and hinges / check straps, paintwork or painting components to colour match, software updates, air conditioning re-gassing, wiring, incorrect fuelling of the car, carbon build up on any component, wiper blades, wiper arms, door trims, carpets, upholstery and seat runners, multimedia systems, remote control transmitters (fobs), satellite navigation discs, jammed CDs, radio masts and motors, blue-tooth connections that are not compatible, fuses, air bag systems, auxiliary belts, chassis, exhaust systems including blocked DPF filters, bulbs and lamps, re-programming, tracking, setting up costs, binding or seized brake components, postage and packaging.

If there are any questions please contact us on 0113 2709488 or email claims@a1approved.co.uk

We answer emails very quickly and all calls are personally answered.
